WASTE MANAGEMENT POLICY

Date: 25.09.2019

The waste management subcommittee of Onda Thana Mahavidyalaya has implemented sustainable and holistic waste management strategies to provide a safe and healthy work environment for teachers, non-teaching staff, students, and visitors. The college is committed to ensuring that all campus waste is collected in a segregated manner and properly disposed of in accordance with the guidelines of the Central Pollution Control Board, Ministry of Environment, and Forest, Government of India.

The waste management policy of the institution is as follows:

1. To ensure that waste management is performed in accordance with all waste legislative requirements, including the duty of care, and to plan for future legislative changes and to mitigate their effects.
2. To minimize waste generation at the source and facilitate repair, reuse, and recycle over the disposal of wastes in a cost-efficient manner.
3. To provide clearly defined roles and responsibilities to all stakeholders and to identify and co-ordinate each activity of waste management.
4. To minimize the use of hazardous chemicals and to use alternative methods in the science departments.
5. To motivate students to minimize the use of paper and reuse it if possible.
6. To segregate biodegradable and non-biodegradable waste and utilize biodegradable waste to produce manure in a vermicompost unit.
7. To invest in the expansion of recycling opportunities on the college campus and transform waste into value-added products like making handicrafts using paper, plastic, and glass waste to reduce non-biodegradable waste.
8. To make all stakeholders aware to use of dustbins for waste disposal to keep our campus clean.
9. To prepare yearly reports on the overall waste management strategies.

BIODIVERSITY AND ENVIRONMENT MANAGEMENT POLICY

Date: 25.09.2019

Onda Thana Mahavidyalaya acknowledges the importance of conserving biodiversity and preserving healthy ecosystems for managing the environment around our academic institution. We are committed to minimizing the impact of our activities on the environment and reducing our carbon footprint by integrating biodiversity management and conservation at all stages of our operations.

The biodiversity management Policy of the institution are as follows.

Here is the revised text:

1. To protect and conserve ecological systems and resources within the campus.
2. Integrate biodiversity in decision-making processes of the institution, as well as in the analysis, management, and reporting of college campus-related infrastructural activity. Apply the principle of mitigation hierarchy (avoid, minimize, restore, and compensate as a last resort) in all phases of infrastructure projects.
3. Increase plantation cover inside the campus area by 50% within the next five years.
4. Landscaping with indigenous decorative trees and shrubs to be done within the next five years.
5. Identify and establish management plans for invasive species that pose a risk to ecosystems.
6. Plant more medicinal plant species to increase species diversity.
7. For every large tree uprooted during natural calamities or infrastructural work, plant five new trees as a replacement.
8. Protect all faunal life in the college campus. Special care needs to be taken during any infrastructural construction activity to minimize the damage to faunal life forms.
9. Restrict noise pollution level to 40 dB during college working hours. Signage and placards to be displayed in and around the institution in this regard.

Biodiversity And Environmental Management Policy

At Onda Thana Mahavidyalaya, we deeply understand the importance of conserving biodiversity and preserving healthy ecosystems to effectively manage the environment around our academic institution. Our commitment is to reduce the impact of our activities on the environment and decrease our carbon footprint. Therefore, we are dedicated to integrating biodiversity management and conservation at every stage of our operations.

The biodiversity management policy of our institution encompasses the following key principles:

1. The college is committed to the protection and conservation of ecological systems and resources within the campus.
2. Biodiversity will be systematically integrated into the decision-making processes of the institution, as well as in the analysis, management, and reporting of college campus-related infrastructural activities. The principle of mitigation hierarchy (avoid, minimize, restore, and compensate as a last resort) will be rigorously applied in all phases of infrastructure projects.
3. There is a targeted goal to increase the plantation cover inside the campus area by 50% within the next five years.
4. Landscaping featuring indigenous decorative trees and shrubs is slated to be completed within the next five years.
5. Management plans will be developed to address invasive species that present a risk to ecosystems.
6. A deliberate effort will be made to plant more medicinal plant species to enhance species diversity.
7. In the event of large trees being uprooted during natural calamities or infrastructural work, a commitment has been made to plant five new trees as a replacement for each uprooted tree.
8. All faunal life within the college campus will be safeguarded. Stringent measures will be implemented during any infrastructural construction activity to minimize the impact on faunal life forms.
